School Division Arranges Finances

Financial arrangements between the Olds School Division No. 31 and the Municipalities were arranged on Tuesday afternoon, when a meeting of the board of trustees and representatives of the various municipalities was held at Didsbury.

Representatives from Mountain View, Westerdale, Rosebud, Beaver Dam, Stauffer, Waterloo and Poplar Grove were present.

In discussing the financing of the schools it was pointed out that according to the School Act the municipalities were required to pay the school requisitions quarterly, which left the School Division without funds to operate for three months. The board felt that if bank borrowings were in the hands of the municipalities a saving in interest could be made and they asked that the requisitions be paid on a monthly basis.

After considerable discussion it was agreed that the municipalities should pay the first quarter's requisitions on or before April 1st and that therefrom the requisitions would be paid on the first of each month.

World's Day of Prayer Friday, February 24th

An interdenominational service is being held on the World's Day of Prayer, February 24th for the first time in Didsbury, at Knox United Church at 3:15 p.m.

A committee of women, representative of the several denominations in this community, planned the service. It is hoped that all will avail themselves of the opportunity to join in this service and thus form a link in a chain around the world on this great day. Come—and bring your friends.

Empire Broadcast To Boy Scouts

At 5:45 p.m., Eastern standard time, February 23rd (tonight), Lord Somers, Deputy Chief Scout, will broadcast a message to the Scouts of the Empire from London in honor of the 82nd birthday of the World Chief Scout, Lord Baden-Powell.

The founder of the great world Scout movement is still in semi-retirement recuperating from his last illness at Paxtu, Nyeri, in Kenya Colony.

Annual Meeting Of Mountain View M.D.

The annual meeting of Mountain View Municipality was held at the Olds School of Agriculture on Saturday last, with a good representation of ratepayers from every division in the municipality. Mr. H. L. Taggart was elected to the chair.

The financial statement was read and discussed. During the discussion questions were asked regarding the cost of the building of roads and the secretary reported that the costs varied with the conditions and that the costs, including depreciation of machinery, was from \$150.00 to \$200.00 per mile. The labor, material and fuel oil costs were charged to the divisions, but that the machinery costs were spread over the entire municipality.

Discussion was introduced on the vaccination of horses for sleeping sickness. The feeling of the meeting was that the secretary should circularize the farmers regarding vaccination and it was stated that with co-operation the cost of the vaccine would be 75c per head for two doses and that the administration could be done at a cost of 25c per head. The vaccination should be done early, not later than May 1, and it would be effective for a period of six months.

Mr. W. H. A. Thomas gave a short outline on the working of the larger school district.

Nominations were called for two councillors, and J. A. Dodd for Division 4 and B. C. Trimble for Division 5 being the only candidates, the returning officer declared both elected by acclamation.

After the annual meeting the council met for a short session, when Councillor Rupp and Secretary Brusso were appointed a committee to meet with the School Board of the Olds School Division No. 31 at a meeting to be held Tuesday.

The secretary reported that the amount of relief paid during January was \$286.61.

Two tax consolidation agreements were approved and two applications under the Farmers' Credit Arrangement Act were reported.

Elections at Westerdale.

Two candidates were nominated in each of the two divisions open for election at the nomination meeting held at the Westerdale Community Hall on Saturday last and elections will be held in each division.

Messrs. Frank Jackson and Harry Levagood were nominated in Division 2 and the election will be held at Melvin School.

Messrs. Alex Hogg and Harvey Hosegood were nominated in Division 3 and the election will be held at Mr. John Manson's residence.

The retiring councillors are Mr. Levagood and Mr. Hogg.

Error In Berscht Poster.

The price in the item "Brown Jersey Gloves" in J. V. Berscht & Sons Hurry Up Sale poster which reads 3 pairs \$1.00, should read 3 pairs 25c.

The sale is for three days only, Friday, Saturday and Monday, February 24th, 25th and 27th, with bargains in all departments.

Town Council.

C. E. Reiber as Mayor and W. E. Rieder and R. E. Lantz as Councillors were installed into office at the organization meeting of the Town Council held on Monday evening.

The following committees and boards were appointed by the mayor—the first-named being chairman:

Public Works: Councillors Budgeon, Rieder and Goeder.

Finance: Mayor Reiber and Councillor Goeder.

Police, Licenses and Sanitation: Councillors Fisher, Friesen and Lantz.

Fire and Property: Councillors Rieder, Budgeon and Friesen.

Relief: Councillors Goeder, Fisher and Lantz.

Building: Councillor Friesen and Messrs. Ed Ford and W. T. Pitt.

Library: Councillor Fisher, Mrs. Huget, Messrs. C. R. Ford and W. A. Austin.

Board of Health: Councillors Goeder, Rieder and Lantz.

Representatives on Hospital Board: Councillor Rieder and Mrs. Harder.

The mayor is ex officio member of all committees.

Councillor Fisher was appointed deputy mayor for three months.

Mr. A. Brusso was appointed auditor and Mr. E. B. Nowers, of Calgary, assessor.

After the appointment of committees the early-closing by-law, which provides for the closing of business houses at 10 o'clock on Saturday nights, was presented. A petition was submitted, signed by a number of business men, most of whom had signed the first petition, objecting to the by-law and asking that the closing time be extended to 11:30 p.m. for two months during the harvest season. A petition was also received, signed by a majority of the garage men, asking that their business be excluded from the by-law.

It was pointed out that as the by-law had been drafted and advertised in accordance with the demand of the first petition and that no valid objection as to procedure had been presented, it was necessary to pass the by-law.

The by-law was passed, with the understanding that it would be amended in the near future so as to extend the closing time at a later hour during harvest season and also to exclude garages from the provisions of the by-law.

NOTICE

A General Meeting of the Didsbury Racehorse Association will be held in the Sample Room of the Rosebud Hotel on Thursday evening, February 23rd, at 8 o'clock, for the purpose of arranging a Sports Day to be held this coming summer.

All those interested are invited to attend.

Reports Operations Of Hail Board

The local municipal secretaries have each received a report from the Hail board, giving a synopsis of the operations of the board during 1938.

The reports contain the following interesting information:

Total area insured 1,505,551 acres

Risk carried: \$7,115,126.11

Premium income: \$613,861.02

Number of claims for losses 2,104

Allowed for losses: \$545,654.21

The board finds that it will be able to pay 100 per cent of the hail claims in zones A, B, C, E and F; 80 per cent in zone D; and 82 per cent in zone G.

As far as Mountain View Municipality is concerned, 100 per cent will be paid in Township 31, ranges 27 and 28, W4 and Township 33, range 1, W5, and in the balance of the municipality 82 per cent of the loss will be paid.

In the Westerdale Municipality losses, Township 31 ranges 2 and 3 and Township 33 ranges 2-3-4 will be paid 100% and the balance of the Municipality 82%.

Didsbury Rink Unbeaten at Olds.

The Jack McCloy rink went big guns at the Olds bonspiel last week, going through the 'spiel without defeat.

They won first prize in both the Grand Challenge and Merchants' events. The prizes were four pen and pencil sets and four sets of carvers.

The rink was: Jack McCloy, skip; Clint Reiber, Frank Kaufman and Bill McFarquhar.

Bert Fisher's rink won 4th prize in the Grand Challenge event, the rink comprising Bert Fisher as skip, Frank Hesselton, Jack Topley and Dick Wallace.

Loses Left Hand In Saw Accident

As the result of a saw cut Sandy Avery, son of Mrs. Alf Mjolaness, Bergen, had his left hand amputated on Friday. Sandy, with others, was sawing wood for Reg. Stovel, when his arm was cut by the circular saw. A tourniquet was applied at once and he was rushed to Didsbury Hospital. Investigation found the arm badly mangled and the bone cut almost through, so that Dr. Clarke found it necessary to amputate the hand three inches above the wrist.

Knox United Church Notes

The services next Sunday will be in charge of the minister, who will give a sermon on the topic "The Investment of Life." A cordial invitation is given to all.

On Friday afternoon at 3:15 there will be an interdenominational service in connection with the World's Day of Prayer. This will be held this year in Knox Church and we invite all members and friends of other churches to join in this important service.

Amateur Night March 2

The Amateur night sponsored by the Didsbury Junior Board of Trade, which was to have been held last Thursday, has been postponed until Thursday next, March 2nd.

The program was postponed in order that contestants might participate in the Amateur contest being conducted in Southern Alberta at the present time by Radio Station CFAC.

This station is conducting a contest throughout Southern Alberta, with eliminations in as many towns as will participate. Eight prizewinners will be chosen in each local elimination and those eight will put on a half-hour program over Station CFAC. From these eight one will be chosen to compete with one who is chosen from each of the other towns where these contests are being conducted. In this last competition prizewinners will again be chosen and \$100 will be awarded, the first prize carrying \$40.00.

The Amateur program to be held in Didsbury next Thursday will be the elimination for Didsbury and district. At this program eight winners will be chosen. They will give a half-hour program over CFAC on March 9th, arrangements of which will be announced at the elimination contest (March 2nd). One person will be chosen by the station from these eight and he or she will compete with one prizewinner from each of the other towns for the above-mentioned prize.

A change in arrangements has been necessitated. There will be no entry fee charged to enter the competition. Each entrant will merely pay the usual admission charge at the door.

Cash prizes will be awarded the eight winners chosen at the elimination next Thursday and also to eight second prizewinners, making a total of sixteen cash prizewinners.

Entries that have already been forwarded need not be renewed, but additional entries will be received by Mr. C. R. Ford or Mr. Lorne Frey until Tuesday, February 28th. Admission: The usual picture show prices 35c, 25c and 20c.

Canada and the Next War

If there are two questions more than any others more frequently on the lips or in the background of the minds of the great majority of Canadians, and have been since the crisis of September 1938, they are these: "When is the next big war likely to break out?" and "When it does, will Canada be in it?"

The first question presupposes the opinion that sooner or later—and generally sooner—an outbreak of hostilities on a large scale is inevitable. Certainly if a poll of the nation could be taken the consensus of opinion would be found in support of the contention that war is in the offing and this view appears to have crystallized more firmly since the Munich pact was signed.

The great majority of the people of this country hope, of course, that there will be no major conflict in which Canada may or may not become involved, but as the trend of European events and policies since the Munich pact unfold themselves, hope wears thin and yields to dubiety and in turn gives place to unwelcome certainty in the minds of many.

With this state of belief prevailing the natural question in sequence is "when?" and this is a question which must await for an answer upon events yet to come and the results of policies which are now being pursued by the nations of the world, and others which may be devised and put into effect in the immediate future. In the light of the many unknown factors involved it would take more than a prophet to give an accurate and reliable answer to the question.

An Unstable Factor

If the first question must go unanswered, it appears almost as difficult to give an unequivocal reply to the other query: "Will Canada be a participant in the next general war?"

It may be stated without fear of contradiction that the majority of the people of this country do not want to participate in any war in which they would adopt the role of aggression, nor are they anxious to have to take up arms as a defensive measure, but in the latter case there may be no choice in the matter. Circumstances, over which this country has no control, might easily arise in a general conflagration, which would force the issue, so far as Canada is concerned. This is a contingency which cannot be overlooked when this question is canvassed.

Apart altogether from such questions as expediency, necessity or even moral obligation, the matter of popular sentiment is an important factor in deciding whether or not a country shall take up arms or in the alternative make concessions to the extent perhaps of great sacrifices to preserve the peace. In an algebraic equation X may be an unknown quantity but it is a stable one. Popular sentiment is not only sometimes an unmeasured yardstick but it is a variable one and subject at times to overnight change.

That this is true is shown in comparatively recent public opinion surveys made by the magazine "Fortune" in the United States, on the question whether in the opinion of the people of that country they would be involved in a foreign war. The answer was "yes" by a two to one majority in a survey made in January whereas by more than two to one a similar question was answered in the negative in a survey made before the Peace of Munich.

More significantly illustrative of the change in public opinion in a few months is the answer to the question in Fortune's January survey: "Should the democratic powers, including the U.S., now stand firm together at any cost to prevent Hitler or Mussolini from taking any more territory at the expense of other nations?" The poll, regarded as an accurate cross section of opinion, registered the following result: Yes, 56.3 per cent; No, 31.9 per cent; don't know, 12.7 per cent.

Reasonable Defence Measures

It undoubtedly affords Canadians a good deal of satisfaction to know, too, that public opinion in the United States strongly supports the comparatively recent utterances of some of their public leaders to the effect that they would not stand idly on the side lines if Canada were attacked by foreign aggressors. This, also, was demonstrated in Fortune's January survey when 72.1 per cent of opinion canvassed expressed willingness to take up arms to protect Canada from invasion.

Canada was a long way from the theatre of war in the 1914-18 conflict, but in another conflict it is quite possible that warfare might be carried to the soil of this country. In such an event it would surely be humiliating to the people of this country if they had to rely entirely upon the friendly feeling of a good and powerful neighbor without being able to strike a blow in their own defence, because they had no means of doing so.

With the world situation as it is today and the gloomy outlook overseas it would seem the part of wisdom for Canada to strengthen her defence forces to at least a reasonable extent.

TAKE THE LEAD OUT OF YOUR LEGS

Get Oxygen in Your Blood and You'll Get the Pep that Sends You Bounding Up the Stairs

People who smother to death die because oxygen has been completely cut off from them. Just as surely you are slowly smothering if your blood lacks red corpuscles. Red corpuscles are your oxygen-carriers. They carry the oxygen you breathe in to every part of your system. Without enough oxygen-carrying corpuscles, your kidneys, liver, stomach and bowels slow down. Your skin gets pale, flabby, often pimply. Your nerves may become jittery—you tire quickly—feel depressed.

What you need is Dr. Williams' Pink Pills. These world-famous pills help make more and better red corpuscles and thus increase the oxygen-carrying power of your blood. Get Dr. Williams' Pink Pills today at your druggist. See for yourself how quickly this one-proven blood builder will help give you back your pep.

Wheat For Palestine

One thousand tons of Canadian wheat (Manitoba) and 500 tons (amber durum) are now on their way to Palestine for a miller in Tel-Aviv. In 1937 Canada exported 412 tons of wheat to Palestine. Imports of Canadian wheat into the Holy Land have varied from 227 tons in 1936 to 71 tons in 1927, and 102 tons in the seven months of 1938 ended July 31. Imports of wheat and flour into Palestine are governed by quotas which are fixed every quarter year, the quotas applying to quantities and not to individual countries.

The first lighted beacon on the Pacific coast of the United States was erected off San Diego, Calif., in 1855.

Hungarian Partridge

Spread Of Mysterious Disease In Game Birds In Western Canada

Delegates to the 10th annual convention of the Alberta Fish and Game Association, were confronted with reports of the spread of a mysterious disease from ruffed grouse to Hungarian partridge and that "serious concern" was being caused by decline of water in lakes in many parts of western and northern Canada.

Dr. William Rowan, professor of zoology at the University of Alberta, told delegates the mysterious disease which has killed thousands of ruffed grouse in 10-year intervals has taken a heavy toll of Hungarian partridge. The disease, usually fatal, has not been explained, he said. It last occurred in 1937 and could be expected to occur again in 1947.

Private Property

Court Decision Rendered In England Over Gas Masks

Nearly 10,000 gas masks distributed during last September's crisis over Czechoslovakia were classed as private property in a court decision in England.

A case against a man at Chesterfield was dismissed when the public prosecutor failed to establish his contention a mask was "His Majesty's property" and the defendant should be punished for damaging it.

The magistrate, however, said ruined masks probably would not be replaced free of charge by the government in case of war.

Hundreds of masks have been damaged by children, otherwise rendered worthless, or appropriated as souvenirs by tourists.

Water is the basis of the metric system of weights, one cubic centimetre of water at 39.2 degrees Fahrenheit being one gram of weight.

If we lived on the moon, we could see the sun and the stars at the same time.

Coal Mined In Year Would Fill Train 3,000 Miles Long

If all the coal produced in Canada in one year were loaded into freight cars and these strung together the train would reach all the way from Montreal to Vancouver, a distance of nearly 3,000 miles, according to an economist of the Canadian National Railways. Writing on mining in the Canadian National Magazine, he points out that the structural materials—cement, lime, sand and gravel, stone—in last year's mining production, would fill two strings of cars reaching from Montreal to Vancouver, and a train carrying the other non-metallics— asbestos, gypsum, quartz, salt, sulphur—would reach from Montreal to Halifax.

If Canada's 1937 copper production were cast in a block the width and height of a railway freight car the block would be nearly three miles long. A similar block of lead would be nearly two miles long and one of the zinc production would be nearly two and a half miles long. The year's silver production would form a slab a foot thick 10 feet wide and nearly 240 feet long. The year's gold would make a block a foot thick, 10 feet wide and almost 24 feet long.

Voting is not a good old American custom. Citizens of the Greek city states, the Roman Empire, and the Germanic tribes, voted long before our time.

Strain Of Modern Life

Is Contributing Factor To Heart Ailments States Detroit Doctor

Dr. Henry F. Vaughan, medical health officer of Detroit, said residents of Canada and the United States are living to-day to end up as heart ailment victims. High tension of modern life is a contributing factor in the high incidence of heart disease, Dr. Vaughan said. "A hundred occurrences in every life are heart strains, and if you become annoyed over some traffic snarl; if you are frightened by some near accident; if you race through the day, you are putting a strain on your heart. It is very likely those experiences eventually will wear out the heart."

Modest Prediction

Dr. Nicholas Murray Butler believes that New York in a generation or two may become the capital of western civilization. The president of Columbia University told the annual gathering of the Pilgrims of the United States, that New York would succeed London as the English metropolis. London, he added, had plainly come to an end as the world's centre of intellectual thought and cultural prestige.

Of every 100 persons in the Indian Empire, 68 are Hindus, 22 Mohammedans, three Buddhists, three follow the religion of their tribes, one is a Christian, and one is a Sikh.

Westcott Notes.

Westcott Social Credit Group held its February meeting at the home of Mrs. Wm. Dagelorde. There were some interesting discussions during the course of the evening and three resolutions were passed and duly forwarded to the provincial government at Edmonton:

1. "Resolved that the Alberta Provincial Government refrain from spending any money on the occasion of the visit to this province of the King and Queen, while large numbers of our people are in great need."

2. "Resolved that the Alberta Provincial Government disregard adverse decisions of the courts, especially those decisions regarding the reduction of interest rates."

3. "Resolved that any pipeline built from Turner Valley be owned and operated by the Alberta Provincial Government."

A very enjoyable evening was had, at the close of which lunch was served by the hostess. The next meeting will be held March 7th at the home of Mrs. Jas. Hughes.

Bergen Notes

Mr. and Mrs. Woods returned recently from a trip to the coast.

Mrs. Bill Mjolsness spent last Wednesday in Calgary.

Mrs. Ralph Anderson and children Opal and Lorne, are visiting relatives at Carstairs.

Miss Frances Mjolsness, of the Jackson School, spent the week end at her home here.

Joe White went to Olds last Monday to see his sister, Mrs. Jackson, who underwent an operation.

Bill Erickson, of Turner Valley, made a flying visit home last Thursday. His brother Leif returned with him.

The people of the district extend their sympathy to Sandy Avery, who is in the Didsbury Hospital, suffering from a painful accident.

Mrs. J. A. Mjolsness returned home last Friday after spending a week with Mrs. Minnie Mjolsness of Sundre.

Ruth and Janet Goehse, Marian, Lloyd and Chester Mjolsness, all of Sundre, and Harold Ferguson, of Calgary, were Sunday visitors at the Mrs. J. A. Mjolsness home.

Ray and Jerry Hughes, who are spending the winter here, are helping some of the local boys make archery equipment, so if you see anyone running about with a bow and arrow they are not necessarily Indians.

Carstairs E. Community

Mike Belinsky's wrestling program at the Hall this Saturday evening has been cancelled.

Don't forget—the Hillbillies will play oldtime and modern music at the Hall dance Wednesday, March 1 and there will be a St. Patrick's calico dance Friday, March 17th.

Sam Schmick has purchased a new Ford V-8 truck.

Jack Shantz, of Calgary, spent the weekend at the home of Sidney Bouck.

Wilbert Rieder, P. Nuas, H. D. Anderson and Ed. Ankenman motored to the Banff carnival on Saturday.

J. F. Dowell motored to Strome, Alberta, to visit his aunt, Mrs. Pointer, who accompanied him on his return home, where she is staying at present.

At the annual meeting Carstairs East Telephone Co. was shown to be in good financial shape, with a slight increase in membership. Following were the officers elected for 1939: L. Siebert, president; R. A. Shaw, vice-president; A. Bushlin, Nels Charlton, R. Boyce and M. Stearns, directors.

RAW THROAT

If Your Sore, Scratchy Throat Comes from a Cold—You Can Usually Get Fast Relief by this Simple Method

1. To ease pain and discomfort and reduce fever take 2 "Aspirin" Tablets—drink a glass of water. Repeat in 2 hours.
2. If throat is raw from cold, crush and dissolve 3 "Aspirin" Tablets in 1/2 glass of water... gargle.

Often Eases Pain and Discomfort in a Few Minutes When "Aspirin" is Used

The simple way pictured above often brings amazingly fast relief from discomfort and sore throat accompanying colds.

Try it. Then—see your doctor. He probably will tell you to continue with "Aspirin" because it acts so fast to relieve discomforts of a cold. And to reduce fever.

This simple way, backed by scientific authority, has largely supplanted the use of strong medicines in easing cold symptoms. Perhaps the easiest, most effective way yet discovered.

Demand and Get
"ASPIRIN"

TRADE-MARK REG.

WORLD HAPPENINGS BRIEFLY TOLD

The Royal Air Force has adopted a new, fast combat monoplane without undressing wings, it was disclosed.

Nazi police dissolved a faith-healing sect called the "Biblical Society of Hamburg" under the law for protection of the state.

Finance Minister Raymond declared enough gold is flowing into France to "buy, if necessary, more than 5,000 warplanes."

The United States safety council announced the country's accidental deaths were reduced by 10,200 in 1938, greatest improvement ever recorded in a single year.

Alberta treasury bills totalling \$4,478,000, held by the Dominion government as security for unemployment relief advances, have been renewed for one year.

Outright ban on importation of horses into British Columbia from any point, save by permit from an inspector under the Contagious Diseases (Animals) act was proclaimed by the provincial government.

Clarence Barry, whose gigantic financial manipulations during the boom years of the 20's ended with a crash which shook the business world was free after serving nine years in prison.

C. W. Bain, Canadian Pacific Railway land agent, said in civil court of revision the old C.P.R. Hotel Vancouver, replaced by a new hostelry to be operated jointly by the C.P.R. and C.N.R., may be torn down before next year.

A Meaningless Phrase

The phrase, "He drinks like a fish," is meaningless in that the fish's process of gulping water is really comparable to the breathing of human being and is simply for the purpose of extracting oxygen from the water, via the gills, just as our own lungs extract it from the air we breathe.

Do This If You're NERVOUS

Don't take chances on products you know nothing about or rely on temporary relief when there's need of a good general system tonic like time-proven Lydia E. Pinkham's Vegetable Compound, made especially for women from wholesome herbs and roots.

Let Pinkham's Compound help build up more physical resistance and thus aid in calming jittery nerves, lessening distress from female functional disorders and make life worth living.

For over 60 years one woman has told another how to go "smiling thru" with Pinkham's—over 1,000,000 women have written in reporting glorious benefits—it MUST BE GOOD!

ONE OF "VIC" REGENTS

William Zimmerman, who is a graduate of the class of '16, Victoria University, Toronto, has recently been appointed to the board of regents of that institution. Mr. Zimmerman is practising law in Toronto, is a director of the McCall-Frontenac Oil Co.

The Real Lord Nuffield

British Philanthropist Is Friendly Man And Has Simple Tastes

Athens in the Financial Post says a traveller who will arouse intense interest wherever he goes is Lord Nuffield who is off to see the Empire. His excursions in the realm of lavish benevolence have made him almost a legendary figure. If "Scrooge" and "Tockshill" have become part of the English language, I can imagine that "Nuffield" may yet win a similar distinction.

Lord Nuffield is not easy to describe. Sir James Barrie might have invented him. He has the ingenuity of one who is seeing things for the first time. His interest in the people he meets is real and unforgotten. Combined with these qualities is a certain helplessness which is most engaging. One would never expect to find his car waiting for him outside, and in fact, it seldom is. I sometimes doubt if he has a car. His manner suggests that while his plans for the evening have been arranged he would be willing to change them if anyone has a better idea. I would not put it past Lord Nuffield dancing in the moonlight on the grass. He has the figure for it and the temperament. In fact there is something rather wistful about him as if he has missed something in life and is looking for it in strange places.

When you talk business with him he ceases to be elusive. It does not interest him to balance argument with argument. He prefers to see the possibilities without the difficulties. "There are lots of people who can tell you why a thing can't be done," he will say. "I want someone who can show me how it can be done." Whether his optimism brought him success or whether success made him an optimist would be hard to prove. The fact is that success has not isolated him from human experience. His horror of suffering, his pity for the poor, his passion for the Empire are keen as when he mended bicycles in his Oxford shop and dreamed of the fortune to be won on the open road.

For Game Protection

Association To Develop Action To Preserve Wild Life

Decision to organize a council to co-ordinate and develop action for preservation of wild life was made by the inter-provincial council of western fish and game associations meeting at Edmonton. A grant of \$10,000 from the Dominion government will be sought for the purpose.

E. B. Pihlstedt, Winnipeg, was elected president and T. McKay Long, Winnipeg, was named secretary of the inter-provincial association. They also represent Manitoba on the executive.

C. H. Miles, Saskatoon, and Judge A. E. Bone, Battleford, represent Saskatchewan and Leonard E. Wise of Edmonton and W. C. Fisher, Calgary, represent Alberta. Charles A. Hayden, Vernon, represents British Columbia with another member still to be named by the British Columbia Fish and Game Association.

The highest wave, reliably recorded, was one estimated at 80 feet, encountered in the North Atlantic during 1922.

ICE CREAM from a wintry window-sill!

HERE'S a delicious ice cream that you can make with no trouble—at less cost than store ice cream! Mix one package of Jell-O Ice Cream Powder in one quart of half milk, half cream. Place the bowl outside on your window-sill in freezing weather, stir occasionally. Jack Frost will do the rest. And how the family will praise the rich, smooth, full-flavoured texture of this ice cream you've made yourself! Ask for some today at your grocer's. It comes in five tempting flavours, chocolate, strawberry, vanilla, maple, lemon.

JELL-O ICE CREAM POWDER

CHEERFUL AS A SUNNY MORNING!

By Anne Adams

As refreshing as the sight of daffodils in spring, this very new and feminine "in and out of the house" frock that's all dressed up with the charm of a rick-rack band! Who wouldn't look sprightly and smart in those impudent little sleeves, and that youthful collar and corset waist? Instead of the open-type sleeves of Pattern 4026, you may have mere bands for a still airier effect—and smart revers with ribbon bow instead of a collar and buttons. The pockets are ever so handy when you're busy about the house. As for the making, you can rest assured that you'll stitch up this frock in no time—for the pattern, and its instruction sheet, are so easy to follow!

Pattern 4026 is available in misses' and women's sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42. Size 16 takes 3 1/2 yards 35 inch fabric and 2 1/2 yards rick-rack.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

FORMER GRADUATE ON BOARD

M. W. McCutcheon, graduate of Victoria College, Toronto, in 1926, who has recently been appointed to the board of regents of Victoria University. He is assistant general manager and secretary of the National Life Assurance Company, Toronto.

Errors May Happen

Newspapers Do Make Mistakes, But Not Very Often

Against the ancient and widely accepted slander that "it's only a newspaper story" and "you can't believe a word you see in the papers," it is pleasant to read the opposite in this well-turned sentence by Frank Kent of the Baltimore Sun:

"In no other business and in no other profession, save that of the pure scientist, is the premium on accuracy so high, the penalty of inaccuracy so prompt, and the proportion of accuracy so great."

No other business or profession, Mr. Kent might have added, has the same number of chances for error in every day's performance. No other agency does its job so continually under the public eye, with so little chance to cover its mistakes. No other business or profession has to live on with its mistakes, certain that they will be rediscovered at the most embarrassing moment long after the circumstances that created them are forgotten. — Editor and Publisher (New York).

Butter For Export

Dairymen Told Deterioration Prevented By Wrapping Of Aluminum Foil

Canadian butter exporters who wish to compete successfully in the British market with New Zealand exporters should wrap butter in aluminum foil, with parchment on both sides of the foil, Dr. F. E. Hood, of Ottawa, told a meeting of the Manitoba Dairy Association convention at Winnipeg. Dr. Hood is chief of the dairy research division science service, Department of Agriculture.

Such foils are a sure protection against surface deterioration, which in the case of some 56-pound cubes examined by the department, has been found to penetrate to a depth of 1/2 inch, he said.

W. C. Cameron, Ottawa, associate chief of the grading and dairy products inspection service, reported a total of 265,839,599 pounds of creamery butter was produced in Canada during 1938. This figure was the largest in the history of the industry, he said.

SELECTED RECIPES

PINEAPPLE SHERBET

- 1 package Lemon Jell-O Ice Cream Powder
 - 1 cup sugar
 - 1/2 cup water
 - 2 cups boiling water
 - 1 cup lemon juice
 - 2 cups crushed pineapple and juice
- Combine Jell-O Ice Cream Powder, sugar, and salt. Add boiling water very gradually, stirring until powder is dissolved; then add remaining ingredients. Cool and freeze in freezer. Makes two quarts sherbet.

LEMON MAYONNAISE

- 1 tablespoon Mazola
 - 1 tablespoon Benson's or Canada Corn Starch
 - 1/2 cup water
 - 1 egg
 - 1/2 teaspoon mustard
 - 1/2 teaspoon salt
 - Dash of paprika
 - 2 tablespoons lemon juice
 - 1/2 cup Mazola
 - 2 tablespoons Crown Brand Corn Syrup
- Method: Mix together the first three ingredients; cook over heat till smooth and thick. Measure remaining ingredients into bowl; add cooked sauce; beat with Dover beater till smooth and thick. Serve with Spring Salad. (Yield—1/2 pint)

Oh Boy! Mom lets me sweeten my cereal with BEE HIVE Syrup.

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

by DR. J. W. S. McCULLOUGH

PASTEURIZED MILK

The Milk Nutrition Committee of Great Britain have just issued their report of the experiments made to determine the relative values of raw and pasteurized milk in the nutrition of young animals.

In some quarters there are persistent efforts being made to convince the public that animals such as calves, pigs, rats, etc., do not thrive so well on pasteurized as they do on raw milk. All the experiments so far carried out in Great Britain, in the United States and in Canada are to the effect that animals without exception thrive if anything a trifle better on the pasteurized article.

At Reading, eleven pairs of calves from tubercle-free herds were fed for six months on milk from an accredited herd. For one-half these calves the milk given was raw; for the other half pasteurized milk from the same herd was used. The calves were weighed before and after the experiment and notes taken of their progress. The average weight for the pasteurized milk group was a little higher than that for those fed on raw milk. Towards the end of the experiment eight of the 11 raw-milk fed calves reacted to the tuberculin test. Only one of those fed on pasteurized milk gave a positive reaction.

Similar results were found from two separate experiments carried out at Aberdeen except that there was an insignificant advantage in favour of the raw-milk group.

Pneumonia was found to be commoner in the raw milk group. Those carrying on the experiments have concluded that raw milk and pasteurized milk have an almost identical nutritive value for calves but that there is a considerable risk of spreading tuberculosis among calves given raw milk.

The bearing of these results on the nutrition of children seems to be identical. Raw milk as a food is about as good but no better than pasteurized milk for children. The advantage of the pasteurized article is apparent from the fact that it rarely carries the seeds of tuberculosis, undulant fever, typhoid fever and the many other infections which experience has proved to be milk-borne.

Editorial Note: Readers desiring the complete set of Dr. McCullough's cancer articles at once may secure same by writing to: The Health League of Canada, 105 Bond St., Toronto, Ont.

The liner Queen Mary has four complete radio transmitters aboard.

ITCH STOPPED IN A MINUTE

Are you tormented with the itching tortures of eczema, rashes, athlete's foot, ringworm, or other skin ailments? For quick and happy relief, use cooling, antipruritic, liquid D. D. D. Prescription. Its gentle oils soothe the irritated skin. Clear, greasy and skin-drying fast. Stops the most intense itching instantly. A 35c trial bottle, at drug stores, grocers or money back.

CHAPTER XII.—Continued

At last it was over. Jack Hammond walked dully away. A few months before he had waded hip-deep in the waters of Lake Sapphire, to welcome this girl as his fiancée. Now, in a gambling house, he had stood as a witness while she married another man. His eyes fell on the roulette wheel. Life and roulette, a turn of the wheel, a bet placed at random, a call of the croupier announcing the loser.

Life and Roulette, a Turn of the Wheel—

Behind him, Kay Joyce was sobbing, the frontier nurse beside her as she knelt against Bruce Kenning's

ACHING COLDS

Relieve Their DISTRESS
This Easy, Quick Way!

Don't take chances. Rub on soothing, warming Musterole. Relief quickly follows.

Musterole gets such fine results because it's NOT just a salve. It's a "counter-irritant"—easing, warming, stimulating and penetrating—helpful in quickly relieving local congestion and pain.

Used by millions for 30 years. Recommended by many doctors and nurses. Made in Canada, in three strengths: Regular Strength, Children's (mild), and Extra Strong. Approved by Good Housekeeping Bureau. All druggists, 40¢ each.

cot. There was little need for gentleness; Kenning was all but beyond pain. Hammond raised a hand to his throat. He left the room.

After a time, Around the World Annie came out into the entrance where Jack stood talking at random with the sergeant.

"Well, the guy's kicked over," she said. "Funny she'd want to marry him, ain't it? And him dying—"

That night, Hammond saw Kay Joyce again, in the hallway of Annie's pavilion. Some of the dullness was gone from her features, giving way to the flare of her always easily aroused anger. Around the World Annie stood at the window, watching the flecking of a snow flurry against the pane.

"And I don't care what you say about it," Annie spat; "the thing was mine and I did what I pleased with it."

Hammond halted an instant, then started on toward the gambling room in search of Jeanne. Annie called him back.

"You're mixed up in this. What about them claims you signed over to Bruce Kenning?"

Hammond looked at her. "Well, what about them?"

"Were they any good?"

"Why ask?"

Around the World Annie breathed deeply, bulging her ponderous bosom. "Me 'n' Kay Joyce have got an argument on about them. She says they're hers."

Hammond pressed his lips. "I guess they are," came finally. "She married Kenning for them."

Annie stared. "Did you?" she asked the girl. "Why marry a guy for a bunch of no-good claims?"

Kay Joyce only glared. Hammond said dully, "But they were worth millions, Annie."

"Millions?" she put a hand to her head. "Did you say millions?"

"That's the indication."

"My Gawd!" the woman gasped. "And I—" she poked a finger at Hammond—"Remember me telling about a check or note or something he signed over? It was them claims. He must have been willing to hook anything to get out of here that night."

Hammond gestured futilely. This was becoming involved.

"Then you've got a hen against them for ten thousand dollars. But Kay inherited them when she married Kenning."

"That's what I've been trying to tell her," the girl snapped. Annie cut her off.

"Lien, hell. Those became mine when he signed 'em over to me. He said he was coming back the next morning. He didn't come back. And I wanted to give these frontier nurses a little present. They're swell gals. But, my Gawd, I didn't know I was passing 'em out a whole gold mine!"

"You had no right to give that away!" Kay Joyce cried. There was desperation in her voice. Annie faced her, suddenly seething.

"Listen, Baby! I gave it to 'em and I ain't squawking. Let's see if you've got the same amount of guts."

"But it's not fair. It was what I was going to live on. That's why I married him—so he could look after me. Don't you see—?" she gestured weakly. "I haven't anything. What in the world will become of me?"

"Oh, you'll live," said Annie. "Is the transfer recorded?" Hammond asked.

"Yeh," Annie pawed for a cigarette. "I thought it'd look bigger if I told 'em to do that. One of 'em

went down to the office as soon as the tent had been put up again."

Hammond shrugged his shoulders. "I guess that's the end of it."

Kay flared. "No, it's not the end of it. She didn't have any right to do it! I'll fight for what's mine—if I have to—"

"Wait a minute, Baby," said Annie. "A dame like you ain't going to take nothing away from the frontier nurses. Not with a jury of miners doing the deciding. Specially when they know all the crookedness there was mixed up in it."

Hammond straightened. A fortune had been taken from all his possible hopes of possession. Now he was about to clinch the argument that would take it from another.

"Besides, Kay, Lew Shade is still alive. I'm afraid he'd testify for anybody but Bruce Kenning."

Sergeant Terry had strolled into the interior and stood silent by. Now he scratched a match and talked over the side of his black pipe.

"Kenning tried to murder two men, Miss Joyce," he said. "Lew Shade is one, Hammond here the other. More than that, he set fire to the bush, which is a good deal worse. I don't believe I'd resort to law."

The girl seemed to wilt. "But what am I going to do? Can't you understand? I haven't a thing! How will I live? How will I exist?"

"You still have half of the properties Kenning and I owned," Hammond interjected. "For that matter, you can have all of them. I'm going over the hill."

Three days later, Jack Hammond walked down to the lake with Jeanne Towers. A plane had just come in, one of the last of the season, until the lake froze, permitting the landing of ships on skis. Tummy Moon crawled out of the cockpit.

"Got a letter for you, Jack," he said. "A pilot gave it to me down at Fourcross."

Jack took the envelope and stared at the pencilled writing. Suddenly his hands began to shake. With a quick, jerky motion, he tore off the end and pulled out the rough, lined sheet of paper within. The words blurred for a long moment, at last to clarify:

Cameron Bay,
Great Bear Lake,
Northwest Territories.

Dear Jack:

A fellow just flew in from down your way and said there's been hell to pay all around. Well, Jack, I guess that's what makes a mining camp.

I thought I'd get this off by the pilot. He's hopping back this afternoon. If things don't turn out all right, and that girl has really done what this fellow says she did, what say we throw our grub in the same pack sack again? This is sure God's country down here at the Arctic.

Why, I know a place where there's enough rich stuff to set a fellow crazy. I never seen such a country; why it makes Sapphire lake look

Get Up at Night?

IF your sleep is disturbed by getting up several times at night, if you experience burning and soreness, if your back is lame and sore, you may get relief by taking Dr. Pierce's Ankle, Mrs. T. Higham, 532 Hill St., London, Ont.

Write "Dr. Pierce's Ankle" today, give me quick relief from backache and kidney trouble. My kidneys caused me so much misery when the secretions passed too frequently and often irritated and burned. My back would be so lame and sore as to make it impossible to get up or down. After using "Ankle" I was entirely relieved of all the aches and pains. Ask your druggist for Dr. Pierce's Ankle today.

like a two-spot. You and me could go wild finding stuff here, Jack. Why, there's a regular wall of quartz, stretching off into the barren lands God knows where. There ought to be enough gold in it to make a man sick.

Say, I hope this fellow didn't tell me all wrong about what happened down there. But if you are all through with her and everything, what say you do what you've really been wanting to do. Now that sounds funny, but everybody could see it but you—you know, see if you can't get the girl you are really crazy about.

Well, partner, come right to Cameron Bay if you do come up. And if you do ask Jeanne and she says she'll come with you, I'll be awful glad.

Good luck to you, Partner.

Yeh, Joe.

P.S. Be sure to ask Jeanne.

Wordlessly he read it again. Wordlessly he handed it to the girl. Her lips began to tremble as she read farther. Finally she looked up, her eyes misty, strangely eager.

"Well," she said brokenly, "ate—you going to ask me?"

A dog sled waited outside Sergeant Terry's tent the next morning, its tarpaulin high over the heaped provisions necessary to a long journey. Again, as Jeanne Towers and Jack Hammond stood before him, the Sergeant repeated as best he could from memory the passages of the wedding ceremony. There was a ring in his voice now and a smile on his generous, kindly lips. The service over, he followed them to the dog team and bowed stiffly, one hand properly crossed on his snow-flecked red tunic.

"A kiss for the bride?"

Jack Hammond laughed, his old, reckless, deep-chested laugh. He released Jeanne from the arm which encircled her.

"A kiss for the police," she countered, as she held up her lips.

Sergeant Terry protested. "Pleased. Not for all of them."

After a time, there was only the man in red coat and yellow-striped breeches, standing there bare-headed, his stiff-brimmed hat held high.

Far away, where the fire line ended, a dog team wound slowly through the powdery snowfall, into the silvered, spirelike spruce and onward toward the Arctic.

(The End)

Energy Of The Atom

Claim Great Advance Made In Tapping This New Source Of Power

The mysterious "box" which contains the long-sought "energy of the atom" has been cracked more than half way open at Columbia University.

Announcement of the achievement, which seems to be far the greatest step yet made toward tapping the unbounded energy in atoms, was made by Professor George Pegram, who credited it to Enrico Fermi, famous Italian scientist who is at Columbia this year.

Columbia is taking an energy of 10,000,000 electron volts as "fuel" and getting back 200,000,000 electron volts. An electron volt is one volt in the smallest known electrical charge, the electron.

This 20-fold return of the power used is not practical, because it happens only occasionally. But it is an entirely new and unexpected discovery.

In the words of Professor Pegram's statement, "This new process gives the largest conversion of mass into energy yet obtained by terrestrial methods."

Economic Barometer

Improvement In Sale Of Ice Cream Linked With Prosperity

The ice cream business has turned the corner and linked arms with prosperity, leaving the depression looking at an empty dish. Government statistics show ice cream production has risen and fallen with the economic fortunes of the country, so the present upturn might be taken as a favorable omen for business in general.

Reasons for the improvement are believed to be better advertising, education of the public to the nutrition value of ice cream, and the fact that "the kids have more nickels," as one government official said.

Trade and commerce department statistics show peak years of production were 1928, 1929, 1930 and 1931, the last years of the boom, and the first years of the depression. Best year was 1929, with 9,797,436 gallons produced at a valuation of \$13,604,709.

The great financial drought then set in, and production melted away rapidly to 5,723,499 gallons valued at \$7,330,632 in 1933. Recovery set in the following year and in 1937, last year for which figures are available, Canada's ice cream freezers turned out 8,409,765 gallons worth \$10,195,432.

Too Much Of The Staff

A business manager once thought that his staff was lazy, and wrote the following note to his junior:

"Bread is the staff of life," but that is no reason why the life of our staff should be one continual loaf."

Worn automobile camshaft bearings cause an excessive oil leakage which results in fouled plugs, burned up rings, and heavy carbon.

Rabbit fur is disguised under more names than that of any other animal close to 150.

COMMENCES NEXT WEEK

STRAIT GATE

BY RUTH COMFORT MITCHELL

Sarah Lynn Dana was tricked into love. First came a romantic moonlight plane ride with handsome Gunnar Thorwald, crack Norwegian flyer who shunned women like poison. Next came Sarah Lynn's conquest of the air, an adventuresome episode that opened new vistas for the dark-haired Dana girl. It gave her a common interest with Gunnar Thorwald, whose attention finally blossomed into love. Then...near-tragedy struck, and Sarah Lynn emerged a cripple, the bird with a broken wing. Could Gunnar Thorwald love a cripple? Find out by reading "Strait Gate," regularly in this paper.

"Alexander's Ragtime Band"

"Alexander's Ragtime Band," the song which Irving Berlin wrote nearly thirty years ago and which has lived long enough in popular fancy to become a genuine American folk song, forms the theme of the 20th Century-Fox production at the Opera House this Friday-Saturday with Tyrone Power, Alice Faye and Don Ameche in the starring roles.

While it revolutionized the entire popular concept of dancing and singing in 1911, it is generally admitted to have begun the ragtime vogue which has since passed through the eras of blues and jazz to current "swing." Since then Berlin has written 600 songs which have aggregated more than 60 million copies of sheet music, and a number of these are included in the production.

K. Roy McLean, Optometrist and Optician, 209-210 Southam Building Calgary, will be in Didsbury at the Rosebud Hotel for his regular visit on Monday morning, March 6th.

J. M. Robertson is driving a new Oldsmobile purchased from the Adshad garage.

A. Melville Anderson, Optometrist and Optician, 224 8th-Ave. W., Calgary, established since 1910, will make his regular visit to Didsbury Monday afternoon, March 6th, at the Rosebud Hotel.

The Didsbury Table Cream Shippers Association will meet on Saturday afternoon at 1:30 at the livestock office. Reports will be received of the meeting of the Calgary and District Cream Shippers Association which will be held this Friday. Also other important business.

The Hockey Club will hold a gala ice carnival next Wednesday evening, March 1st at the rink. A broom ball tournament will be the big attraction and prizes will be given for racing and the best costumes. Make entries for broomball with Tom Roys.

Great as the acclaim that has greeted it! Greater than your greatest expectations! Alexander's Ragtime Band at the movies this week end, with Tyrone Power, Alice Faye, Don Ameche and a galaxy of other notables in Irving Berlin's first great song success—as popular today as it was in 1911—along with 28 of his other song successes!

Messrs. Tom Clarke's and Harold Gulliver's addresses on Speaking in Public and Oral Composition were greatly appreciated by the Junior Board of Trade Spokes Club at their meeting Monday night. The next meeting will be held Monday evening, February 27th at 8:30 in Mr. C. R. Ford's room at the Public School.

Knox United WMS held its regular meeting on Tuesday afternoon at the home of Mrs. Kercher with a very good attendance. This was the occasion of the first anniversary of the organization and all those interested have much reason to feel gratified over the progress that has been made. An interesting report of the Presbyterian meeting at Red Deer, which was held on February 3rd, was given by Mrs. Geeson.

Fire Destroys Barn.

The barn on the farm of Mr. John Befus was destroyed by fire on Tuesday. The fire was thought to have been started by a spark from a pumping engine.

The livestock in the barn were got out without loss but the barn was totally destroyed together with a large quantity of feed.

Didsbury Loses Out In Play-Off

The Didsbury Hockey boys were eliminated in the play off for the Jenkins' Cup in the Rosebud League when they lost out in both the semi-final games to Carstairs.

In the first game at Carstairs on Thursday night the local boys made a good showing but Carstairs was too strong for them and won by a score of 9-5.

In the second of the home and home series played at Didsbury on Tuesday night, a good brand of hockey was displayed and after a tight game Carstairs again proved too good for the local boys and won out with a score of 6-4.

After the game the boys were entertained at the Bright Spot to hot dogs and coffee as guests of Mr. and Mrs. Russell Ady.

BIRTHS

Didsbury General Hospital

February 18th, to Mr. and Mrs. Weston Bouck of Cremona, a daughter.

February 21st, to Mr. and Mrs. Harold Swanson of Carstairs, a daughter.

February 22nd, to Mr. and Mrs. Herbert Moore, of Didsbury, a daughter.

NOTICE OF POLL

(Election by Electoral Divisions)

**Municipal District of Westerdale
No. 311**

Public Notice is hereby given that an election will be held for a councillor for Electoral Division No. 2 and Electoral Division No. 3 of the Municipal District of Westerdale No. 311 for the year 1939, and the polling will take place on Saturday, the 25th day of February, 1939, from nine o'clock in the forenoon to five o'clock in the afternoon.

The electoral division has been divided into the following polling divisions:

Polling Division No. 2 at Melvin School.

Polling Division No. 3 at John Manson's residence.

I will at the Westerdale Municipal Office in Didsbury on Tuesday, the 28th day of February, 1939, at twelve o'clock noon, sum up the votes and declare the result of the election.

Given under my hand at Didsbury, Alberta, this 21st day of February, 1939.

GEO. A. YOUNGS,
Returning Officer.

The World of Wheat

By H. G. L. STRANGE
Director "Crop Testing Plan"

The continuation of the present 80 cent per bushel guarantee for wheat, on a basis of 1 Northern Fort William, is the recommendation made by the Bracken Conference to the Dominion government.

The conference also requested the government to consider the problem of those farmers who sold coarse grains, and the additional problem of those producers who at times suffered from small or no yields.

Two objections have been raised in Eastern Canada to the present 80 cent guarantee. First that it will lead to an increase in wheat acreage. It has been shown, however, that 80 cents Fort William is still definitely below the cost of production, and therefore would hardly induce farmers to increase acreage.

Secondly that 80 million dollars, which may be the cost of the plan, is a lot of money. I draw attention, however, to the fact that the farmers of the West have been paying for many years a bonus in the form of tariff protection of between 40 and 50 million dollars each year to the manufacturers, mainly in the East.

It is not, therefore, I suggest, unfair for Western farmers in their hour of extreme need to ask for some compensation for the bonus they have paid to industry for so many years past.
